PATRIOTISM AT WORK. Amvet Post 51 officials illustrate how new Stars and Stripes will look on Memorial Day when placed in flag holders affixed to 100 utility poles along Madison Avenue from 14th Street to Granite City High School. The flag holders were secured to posts 13 feet above street level by Charles Wilkins Jr., at left, Adam Petras and Steve Konovich. The latter is not shown in the photos. Petras grips a telephone pole with his left leg to maintain balance while nailing a holder to the wooden post in photo at right.

Area Ready For Holiday Displays of U. S. Flags

Patriotic gestures are not always confined to marching in parades, waving a flag or reciting the Pledge of Allegiance. Patriotism, in many instances, involves a lot of hard work and little recognition.

Such was the case as traffic whizzed by three members of Amvet Post 51 who spent more than six hours installing 100 flag holders along Madison Avenue from 14th Street to Granite City High School.

The local Amvet work detail included Charles Wilkins Jr., third vice-commander, Post Finance Officer Adam Petras and Steve Konovich, Post 51 public relations director.

The ex-servicemen used a pickup truck donated by the Wilbur Waggoner firm to haul the flag fixtures along the thoroughfare and reach the 13-foot required height on utility poles where the holders were installed.

The truck was equipped with a flashing yellow light to warn traffic and a large American flag and Amvet emblem were positioned at the rear of the vehicle. A tape recorder played patriotic music as the truck moved along the avenue.

Install Permanent Holders
In preparation for the installing project, two other Amvet Post 51 members, Floyd Tucker and Bill Barton, readied the new flags, staffs and holders by drilling 200 holes in the staffs and tying the flags with twine to secure them.

The extra precautionary measures were taken to avert trouble in the event strong winds develop while the flags are on

2-GCHS Plan Offers Geographic Balance

A committee report currently being studied by the Granite City District Nine board of education, suggesting a second high school immediately at Nameoki-Marville Roads, cites a number of potential advantages of the plan.

An elementary school is being built on the Schaefer tract on Old Alton Road and is to be in operation by September 1972. A grade school redistricting committee which studied the present facilities and needs concluded that a second new grade

school will not be needed on the Wein tract at Nameoki-Marville Roads.

Recount Gives Dawes Victory by Nine Votes

Emerald Dawes, alderman of Granite City's seventh ward, was declared elected to a new term by a margin of nine votes following a ballot recount by a city council committee Saturday.

The recount was completed with a total vote of 382 votes for Dawes and 573 for George Gordon who opposed Dawes in the April 6 Municipal election.

The canvass of the vote in the five precincts of the seventh ward originally gave Dawes 584 votes, a margin of three over Gordon's 581. A third candidate, Carl B. Schoenman, who was given 272 by the official canvass, lost two votes in the recount for a new tally of 270.

As a result of the recount, Dawes lost two votes, while Gordon lost eight. Most of the change occurred in Precinct 28 where the 184 votes given Gordon in the original count were cut to 176. Dawes lost one vote in that precinct for a new count of 135 votes.

Dawes also lost one vote in Precinct 30 for a new count of 82, while Gordon gained one for a new count of 68. Gordon, however, lost one vote Precinct 31 for a count of 135. Dawes' count in Precinct 31 was unchanged at 135. Schoenman lost one vote in Precinct 28 and one in Precinct 30.

The recount was made by a council committee consisting of Aldermen Paul Rutledge, Clyde Boyd and Sam Whitmer, with City Clerk Robert W. Stevens and City Attorney Leon Scroggins assisting.

Also present were Dawes and Gordon, William W. Schooley, Dawes' attorney, and Richard Allen, attorney for Gordon. The recount was authorized by the city council in its regular meeting last week, following lengthy debate over the council's right to open the ballot in the original count were cut to 176. Dawes lost one vote in that precinct for a new count of 135 votes.

Meeting Tonight
The topic may be reviewed further by the school board tonight.

Findings of a secondary-level redistricting study committee have led to the following proposals, assuming financial and legal feasibility:

1. Elimination of use of Central Junior High School.
2. Designation of Coolidge, Prather and Grigsby Junior High as seventh and eighth grade centers, with present Granite City High School becoming a four-year school.
3. Construction of a new four-year high school on the Wein site.

The 1,770 students initially accommodated at the second high school would include 360 from the Maryville Grade School area, 440 from Mitchell, 240 from part of the Nameoki School area, 210 from Stallings, 160 from part of Lake, 160 from part of Parkview and 100 graduates of parochial elementary schools.

Remaining students would attend GCHS, which would have an enrollment of 2,350.

Airport Site to be Announced Wednesday

The long awaited announcement of the proposed Illinois site for a new \$350 million bi-state area airport will be made at a special meeting of the St. Louis Metropolitan Area Airport Authority at 4 p.m. Wednesday at the Sunset Hill Holiday Inn.

Reports of an engineering study by R. Dixon Speers Associates of Manhattan, Long Island, N.Y., and an environmental study by Arthur D. Little, Inc., of Cambridge, Mass., on three possible Illinois airport sites have been printed and are expected to be delivered today according to Robert B. Lamkin, authority chairman.

The reports will be distributed to "every citizen who has a need for one," at the meeting, Lamkin said.

The areas studied by the two firms include a site between Columbia and Waterloo, a site near Troy and one east of Belleville (not Scott Air Force Base).

Recreation Center on Franklin

The Granite City Park District announced purchase of the Nameoki Murdock Building at Franklin and Amos avenues, at a price of \$120,000. An independent appraisal made two months ago listed value of the land and buildings at \$130,000.

The property, formerly owned and occupied by the Nameoki Murdock Beer Distributing Inc., also includes a 45-foot frontage on Pontoon Road under buildings, Henry R. Gabriel, president of the Granite City Park Board, said.

Details of the sale were worked out late Friday after two months of negotiations between park district officials and the property owners. Payments amounting to \$24,000 annually will be made over a period of four years, following an initial down payment of \$24,000.

No interest rates will be charged the district under terms of the contract, eliminating the necessity of a bond issue or borrowing funds, Gabriel said. The park board president commended officials of the Murdock company "for their civic mindedness in making these contract arrangements."

In announcing the acquisition, Gabriel said the purchase does not include the building occupied by Maryland Real Estate Co. which adjoins the Murdock Building.

Estimated cost of operating the new recreation facility is \$21,000 annually, Harold E. Brown, director of parks and recreation, said. The projected figure includes salaries amounting to \$14,000 for a recreation supervisor, instructors and a custodian.

Prospective recreational use of the building includes square dancing, young adult co-activities, banquets, family movies,

social events and large general meetings in a spacious multipurpose room, Brown added.

A smaller paneled room could hold such activities as Boy and Girl Scout programs, garden and coin club meetings or bridge classes, he said.

Pre-school sessions, arts and handicraft instruction and similar classes are proposed for another room presently used as a storage area, Brown said. The building also includes an office area, cooler compartment, storage rooms and adequate rest room facilities. The latter area may be expanded if required, the official pointed out.

Replacing Highway Supt. Estes

The office of township highway commissioner of Chouteau township, held by James L. Estes, 124 Voigt Place, was vacated by the Chouteau town board Thursday night.

The action was taken in a special meeting in which a resolution declaring Estes had failed to qualify for his new term as township commissioner was approved 4 to 0.

Estes was re-elected highway commissioner without opposition in the April 6 township elections. "Voting in favor of the resolution were James E. Greer and Marion Sparks, town auditors; Walter Sparks, township supervisor, and George Warnecke, town clerk, third circuit auditor, Cletus L. Bedwell is on vacation and did not attend the meeting.

Also present were Otis R. Reeves, town tax assessor; Don M. Buckley, township attorney, and Harold C. Carson, a township resident and elector.

Failed to File Oath
The resolution asserted that Estes had failed to file his oath of office within the period specified in state law for him to do so, and that he therefore has failed to qualify for the position. The bill stated that, at the time of presentation, Estes had ten days within which to file the oath "and was negligent in his duty to do so."

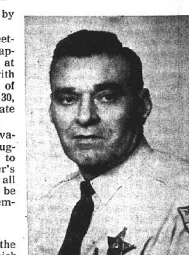

The resolution was submitted to the board by Warnecke. A motion to approve was made by Greer and seconded by Marion Sparks. It

was approved unanimously by the four board members.

Following the special meeting Thursday night, Estes appeared at Warnecke's office at 4:30 p.m. Friday and filed with Warnecke the required oath of office, dated Friday, April 30, and notarized by Magistrate Joseph Kelleher.

Upon adoption of the bill vacating the post, Warnecke suggested that an appointment to fill the highway commissioner's office not be made until all members of the board can be present. The other board members agreed.

Meeting Set May 15
Warnecke said later that the next regular meeting at which

Levee Primary Voting Tuesday

(Candidate Biographies on Page 12)

Voters of the Quad-City area living within the East Side Levee and Sanitary District will go to the polls tomorrow to nominate two Democratic and two Republican candidates for the levee district board of trustees.

Polling places—32 of them in Granite City township, 11 each in Venice and Nameoki townships and 10 in Chouteau township—will open at 6 a.m. and close at 6 p.m. Results of the election will be reported to the office of County Clerk Eulalia Holz at Edwardsville.

Three Democratic candidates are seeking the two nominations on that ticket in tomorrow's balloting, but the Republican ticket has not yet been decided. Thus, a Republican representative will be elected.

Acute Need for Blood At Center for Burned

A program unique in Shrine-dome will be announced at 6 p.m. Wednesday at the Rose Bowl.

The Ainaad Temple Legion of Honor at that time will explain the work of the Burns Institute, which is being initiated in response to needs at the Shriners Burns Institute, Cincinnati, O.

Planning of the project has been spearheaded by Charles H. Wagner, potentate, O. E. "Gene" Miller, commander of the Legion of Honor, and Donald Kopp, principal of Nameoki Grade School and chairman of the Legion of Honor blood program.

People of all walks of life, all ages and all creeds have been helped by the Burns Institutes, associated with the Crippled Children's Hospital program. The institutes have pioneered in research and in the treatment of those who are severely burned.

Because of the large unmet need for blood which is used to aid the fire victims, Shriners up to and including Potentate Wagner are arranging to donate blood and the general public also is to participate.

The program is being launched initially in the Quad-City area and later will be started in East St. Louis and Belleville, followed by other areas. Due to the importance of continuing the work of the Burns Institute, the degree of success here is being watched nationally.

Cooperating hospitals include St. Elizabeth in Granite City, Christian Welfare in East St. Louis and Belleville Memorial. May 15 starting date is planned. Those willing to give blood are to contact any Shriner and fill out an application form.

ceiving the most write-in votes will be Bellevue, May 10, and GOP spot on the general election ballot.

As the result of a series of contradictory court orders over the past four months, there still is a question as to whether or not a run-off election, now scheduled for June 22, will be held. A circuit court

ruling on that question is scheduled to be heard May 10.

Vote in St. Clair
A similar election is being held tomorrow in the four townships of St. Clair county that make up that sector of the levee district. Voters in those townships, East St. Louis, Centerville, Canteen and Sitter will nominate three Demo-

crats and three Republicans. A total of 11 candidates are running on both tickets in St. Clair county.

The levee board election tomorrow is a special primary ordered by Governor Richard B. Ogilvie following the conviction last fall of the present

Ground Granite in Enamel Coat Over Sheet Iron Led To Wales and Graniteware

Granite Cityans on Aug. 21-28 will observe the city's 75th anniversary. Below is the seventh in a series on local history. The last article told of the arrival in St. Louis of Frederick and Mary Niedringhaus and their sons, Frederick W., who became a carpenter, William F. and Frederick G., linemen and roofers, and Henry, a student. W. F. and F. G. Niedringhaus prospered by producing tin pans and utensils and in 1866 formed the St. Louis Stamping Co.

Despite fat incomes, William F. and Frederick G. continued to work feverishly, sometimes taking turns at the stamping machines when rush orders piled up.

William F., especially, spent long hours at the factory, engrossed in details of production or absorbed in plans to capture new markets.

His nervous system finally splintered. White and trembling, he was put to bed.

The doctor said it was a clear case of too much tinware. He advised William to forget that pots and pans

existed, to see new places and to cultivate new interests. Thus, when William regained his strength he went overseas to Europe.

The young manufacturer visited the chief capitals, lollied at fashionable watering places and viewed the museums and cathedrals listed in guide books. Then, partly because it recalled him on the rivers at home, he booked passage on a steamboat flying the Rhine.

THE SECOND SUNDAY IN MAY

As sons and daughters honor their mothers on the second Sunday of each May, they are also paying tribute to Anna Jarvis who conceived the plan to establish this day as a memorial to her own mother and to mothers everywhere. Her idealism and perseverance resulted in President Woodrow Wilson's official proclamation of 1914 establishing Mother's Day in the United States.

Homage to motherhood dates back many centuries before its revival in the United States. In ancient mythology, a yearly spring festival was dedicated to Cybele, mother of the gods, who was honored with rites held in the woods and fields. This practice was introduced to Rome about 250 B.C. with singing and dancing that went on for three days.

MOTHERING SUNDAY

Christianity brought dignity to the tribute to motherhood. For years a holiday honoring mothers was observed by an ecclesiastical order on the fourth Sunday in Lent. In 17th Century England it was the custom for young apprentices or domestic people to return to their homes on the fourth Sunday in Lent and visit their own mothers. Thus Mother's Day, as it was called, be-

came more popularly known as "Mothering Sunday."

Anna M. Jarvis

The traditional gift for this early version of Mother's Day was a simnel cake—a rich plum pudding baked in a hard crust of fine flour and water. Since these enormous cakes were hard as rocks, it's no wonder that one poor mother used hers for a footstool.

On Mothering Sunday, sons and daughters attended to the household duties so that the mother could go to church services. The observance of Mothering Sunday still persists in certain parts of western England and simnel cakes are still especially made and sold for the occasion.

We may not have simnel cakes, but we do have a fine collection of Hallmark cards and gifts for Mother's Day. Visit our store soon and send your "very best" to all the mothers in your life.

HOW MANY MOTHERS DO YOU KNOW?

Pledges may be made by calling Mrs. Carol Chiappi at 451-7946. Mrs. Chiappi and Dr. Jim Anthis, pastor of Central Christian Church, are coordinators of local effort.

Bill Passed to Legalize Bingo

Legislation that would legalize bingo, limiting the operation of games to non-profit organizations that have been in existence at least five years, was passed by the Illinois House at Springfield Thursday. The measure carried 126 to 24 and was sent to the Senate.

The bill's chief sponsor was State Rep. John G. Pary (D-Chicago) who told the House members that "Bingo is recreation. It is not gambling. Every charitable institution in the state can benefit from Bingo."

State Rep. William Murphy (D-Antioch), who has tried every year since 1957 to get bingo legalized, said "It's time to take bingo out of the supermarkets and put it back in the church basements."

Backers contend adoption of the bill has been cleared by the new constitution because it lifts the ban on lotteries contained in the old constitution. A bingo bill passed in 1960 was vetoed by Governor Ogilvie on grounds it violated the constitutional provision.

Rites Held Today for Audrey Martin, 69

Funeral services were held at 1 p.m. today for Mrs. Audrey (Behrends) Martin, 69, of 2027 Iowa St. She died at 10:45 a.m. Thursday at St. Elizabeth Hospital following a one-day illness.

nosed into a village where cargo awaited, and William went ashore to stretch his legs.

As he sauntered down the main street, idly glancing at shop windows, his attention was drawn to a display of kitchen utensils in the show room of a small factory.

Unlike any William had ever seen, these pots and pans were coated with a glossy substance that glistened in the sunlight.

He hurried in and examined the ware. It felt as smooth as frosted satin.

Excitedly, he called for the proprietor and introduced himself. Could Herr Proprietor tell how these vessels were manufactured?

Yes, Herr Proprietor could and would—for \$5,000.

William returned to the steamboat and carried his luggage ashore. He spent the next several weeks in the factory, learning what ingredients went into the enamel and how it was applied to sheet iron.

Then, armed with notes, he headed for the nearest port.

Back in America, he patented the enameling process and, with Frederick G., began producing Granite Ware, so named because ground granite was the basic material in the enamel.

Housewives bought granite ware utensils, found them satisfactory and told their neighbors. Sales of the St. Louis Stamping Co. doubled and redoubled.

Sheet iron used in making granite ware had to be imported from Wales. The brothers always purchased an extra year's supply, a policy rewarded in 1877 when the Welsh mill burned to the ground.

In 1878, the Niedringhaus built the Granite Iron Rolling Mill at Second and Destrehan Streets, St. Louis.

To obtain sheet iron comparable to the foreign product, they

imported skilled Welsh workmen among whom were: William George, John Harris, William Harris, Edwin Higgs, John Howell, John Jenkins, David Johns, John Davis, Meredith, Robert Price, Ed Richards, Ben Thomas, Joshua Thomas, 7 to m as Thomas, Frank Watkins and John Webb.

The company formed in 1878, Granite Iron Rolling Mill, eventually became a Granite City Steel Co., which traces its history to that year.

It was destined to remain in Missouri until the founding of Granite City during the thirties. The Niedringhaus, particularly Frederick G., promptly advocated high tariffs to protect infant industries.

The new rolling mill had enabled the St. Louis Stamping Co. to stop importing sheet iron, but it still was compelled to buy foreign tinplate, paying a duty of \$22.40 per shipping ton.

The low price of the English product had stifled development of domestic tin mills; American manufacturers were consequently importing about \$20,000,000 worth of tinplate yearly.

In 1888, Frederick G. Niedringhaus was chosen as the Republican candidate for U. S. Representative in what was then the Eighth Congressional District of Missouri.

Elected in a walkover, he allied himself with the group of protectionists led by William McKinley of Ohio, chairman of the House Ways and Means Committee.

Congressman Niedringhaus supplied data about tinplate consumption which McKinley used in formulating provisions of the momentous tariff bill he introduced in April 1890.

Described by its author as "protective in every paragraph and American in every line," the bill increased rates on virtually all household articles and imposed a duty of \$49.28 on each shipping ton of tinplate.

While Frederick labored on the legislative front, William tolled at the factory in search of a method to enamel steel utensils.

A keen analyst of industrial trends, he had seen that the

David Kimbrell, 52, Venice Teacher, Dies

Funeral services for David Marshall Kimbrell, 52, of 1421 St. Louis Ave., East St. Louis, a teacher in the Venice School District, will be held at 8 p.m. today, Monday, in the St. Luke AME Church, East St. Louis.

He died Thursday in his home. A talented musician, he played with several nationally-known bands. Mr. Kimbrell was a veteran of world war II and a member of the St. Louis Federation of Musicians, St. Luke AME Church and the Alpha Phi Alpha Fraternity, Inc.

Survivors include his wife, Bessie Kimbrell; two daughters, Mrs. Jerrian K. Hickman and Marshell Kimbrell; his father, Cleve Ruff and a sister, Mrs. Hazel Lucas.

Iron Age would pass and, with it, iron granite ware.

After repeated failures, he succeeded in developing an enamel which expanded and contracted at the same rate as sheet steel. An open hearth furnace was installed at the rolling mill to manufacture steel.

The country as a whole disliked the measure, fearing it would cause exorbitant rises in the cost of living.

Many protectionist Congressmen, including William McKinley, were defeated in the Democratic landslide of November 1890.

In the following year, McKinley ran for governor of Ohio. As campaign souvenirs, he distributed 100,000 tin plate plates manufactured by the St. Louis Stamping Co., the first American firm to produce tin-plate commercially.

In 1892, Governor McKinley dedicated the huge Leeds Roll Mill at Elwood, Ind., first big tin-plate mill in the country.

Four years later, McKinley was elected President of the United States.

display along Madison Avenue, Conkovich explained. He noted that placing the metal holders in a permanent position on the utility poles will permit volunteers to position the flags quickly.

Amvet Post 51 members, who spearheaded the project to "line Madison Avenue with flags" on Memorial Day and other national observances, will be responsible for placing the flags prior to designated events during 1971.

Next year and in ensuing years other local veterans' groups will provide volunteer labor to perform the task, Conkovich said.

The 100 Stars and Stripes, staffs and other accessories were purchased with funds donated by the Tri-Cities Trades and Labor Council.

Obtained Financing

Don Parente, county secretary and Alderman Paul Schuler primarily will take part in seeking and obtaining financial help from the trades and labor group.

The patriotic display will be first viewed by the public on Memorial Day when representatives of several veterans organizations will take part in the "Parade of Flags" program, to be sponsored by the Disabled American Veterans Auxiliary Unit 53 of Granite City.

Elements of the U. S. Air Force and U. S. Marine Corps will join with the veterans and Boy and Girl Scouts for the "Parade of Flags" ceremony.

The military units have agreed to provide color guards and a firing squad for the observance. Mrs. Irene Hoelter, DAV Auxiliary state commander and parade chairman, reported.

A national veteran of world war II, Mr. Maxfield was employed as a steamfitter. He was a member of Steamfitters' Local 533 of Kansas City, Mo. University Lodge of Clayton, Mo., and the Masonic Order.

Mr. Maxfield was born and reared in New Memphis, Ill.

He is survived by his widow, Mrs. Sonya Maxfield of Bunker Hill, Ill.; one son, James Maxfield of Shipman, Ill.; five brothers, Willard Maxfield of Granite City, James Maxfield, Steelville, Mo.; Herman Maxfield, Breese; Frank Maxfield, Newberg, Mo.; and Calvin Maxfield, New Baden, Ill.; five sisters, Mrs. Ethel Hodges, New Baden; Mrs. Ella Mueller, Mascoutah; Mrs. Marcella Berberich, New Baden; Mrs. Jane Rodel, St. Louis, and Mrs. Effie Brockelings, Granite City; and one grandchild.

Funeral arrangements are given in today's obituary column.

Levee Primary**

four members of the levee board — Morris Campbell, George Duff and Lawrence Tolar of East St. Louis and William "Mike" Ebersold of Venice — on charges of misconduct in office.

The levee board normally is made up of five members, two from Madison county and three from St. Clair county, but only four trustees have been serving since the death in 1969 of Joseph Grant of Granite City. Therefore a vacancy has existed for the past two years.

Governor Ogilvie ordered the special primary election and the special runoff election June 22 after the present four board members were ordered to vacate the offices as part of their sentence on the misconduct charges. The members appealed and obtained an Appellate Court order, later upheld by an Illinois Supreme Court ruling, permitting them to remain in office pending their appeals.

The governor refused to rescind the court action and persisted in the election. Last week, Associate Circuit Judge Howard Lee White ruled at Belleville an injunction that would have halted tomorrow's election.

He is scheduled to rule immediately on the June 22 election and said he will do so May 10. All three Democrats seeking nomination to two Democratic ballot spots tomorrow are of Granite City. The lone Republican candidate is of Venice.

Candidates are: Democrats — W. D. Great-house, 50, of 34 Riviera Drive; Von Dee Cruise, 47, of 2401 Edwards St.; and Dale Higgins, 59, of 2923 Iowa St., Venice.

Poling places are listed elsewhere in this issue.

Gardenaires Win Honors for Projects

The Gardenaires Garden Club of Granite City has won the Sears, Roebuck Environmental Improvement Program award for District V, Garden Clubs of Illinois. The honor was conferred in recognition of the club's outstanding contributions to environmental projects.

Announcement of the award was made at the District V Institute meeting held Thursday at the Shiloh Valley Grange Hall near Belleville. The citation was presented Friday at the Sears, Roebuck Catalogue Sales Store, 22 Namecki Village Shopping Center, by Manager Hugh Harrigan.

A check also awarded the club by the Sears firm will be presented at a later date. Mrs. Albert A. Malotki, Gardenaires president, said.

Projects sponsored and maintained by the Gardenaires

which earned for the club the Sears, Roebuck award and several honors at the recent state convention of the Garden Clubs of Illinois in Chicago, include: establishment of the Mini-Garden Information Center at the Granite City Public Library; planting 350 trees for the city in a nursery located at the Water Pollution Control plant; and beautification of the West Granite fire station grounds.

Mrs. Malotki explained the three projects were initiated in March 1970 with the work progressing throughout the year. The fire station project is almost completed, she noted, while the tree nursery program and the Mini-Garden Center are both continuing projects.

Dry Cleaners Robbed; Clerk Threatened

A woman employee of Grand Cleaners, 2009 Namecki Road, was held up and robbed of \$63 by a man who threw her to the floor when she tried to escape to another room. The incident occurred at 5:10 p.m. Saturday.

Mrs. Sarah Johnson of Granite City informed police that a tall man, about 50, entered the cleaning shop and told her to open the cash register. When she turned and ran to a back room, the robber chased her and threw her down on the floor, injuring her left arm and shoulder.

She then complied with his demands to open the register and the man left by a side door taking \$63 in currency.

Described as slender built, in need of a shave and attired in a grey cap and grey work clothes, the robber was believed to have called at the cleaning firm earlier the same day.

On his earlier visit, the man inquired whether garments were ready for a person whose name did not correspond with any tickets on cleaned garments. When she failed to locate the clothing bearing the name he gave, the man left the store, the employee stated.

ARE YOU EVADING BETTER HEALTH

Sometimes, because of fear a person will not correctly answer the questions asked by their doctor. They want to be assured that they are free of disease and will falsely give "answers" that can get them a good grade on their health exam. It is even possible that this fear can actually suppress symptoms.

With your full cooperation a physician can usually make an accurate analysis of your health. If there is something wrong he can often find it at the first symptoms and correct it quickly. New prescription medicines and medical techniques offer better health than ever before. But your doctor may not be able to help if you do not level with him.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver promptly without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

Blundy Wins Feature Race At Tri-City Speedway

Jerry Blundy of Galesburg put it "all together" Friday night to win the super sprint car feature at the Tri-City Speedway, with Danville's Bobby Jones finishing down his neck at the finish line.

Jones started in the pole position for the feature race with Blundy in the outside of the first row. Blundy took the lead in the first turn and Jones pushed for the lead, overtaking Blundy in the second lap of the 20-lap event.

Blundy regained the lead and held it to the finish line with Jones only about two feet behind.

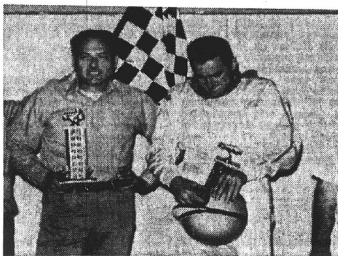

Spalding Battles
Granite City's Wil Spalding in the new 56 sprinter and local favorite David Dwyer of Columbia, Mo., carried on a battle for fourth place through much of the race as Roy Cary of Booneville, Mo., kept a consistent hold on the third position.

On the 11th lap, Bill Utz of Sedalia, Mo., had the misfortune of having his shoulder strap wrap around his steering wheel in the first turn, immobilizing the wheel and causing his number 98 car to hit the outside wall and drift to the inside of the track where it was struck by Gary Scott's car.

Struck in Rear
Dwyer was unable to avoid the impasse and struck Scott's auto in the rear, pushing it forward, starting the engine and putting Scott back into the race. Dwyer was also able to continue driving but the 98 sprinter had to call for a push truck to be restarted.

Only nine of the 16 cars in the feature were able to finish as mechanical problems and engine overheating took their tolls.

Bill Myers of Rosewood

TROPHY WINNERS. Jerry Blundy of Galesburg, Ill., left, was the winner of the super sprint feature race at the Tri-City Speedway here Friday night and Billy Myers, Rosewood Heights, won top honors in the late model stock competition.

Heights was an easy winner in the Donaldson's Cafe Mustang as he took an early lead in the late model stock feature and slowly expanded it to take the checked flag almost one-quarter of a lap ahead of second place Bobby Stanton of Alton.

Spalding's new sprint car, which had never been on a race track before Friday night, drew much attention. The car was built this winter by Don Edmonds in Anaheim, Calif., and was purchased by Dean Hathman.

Spalding and Hathman are seeking a sponsor for the car. The methane burning sprinter has a 350 cubic inch Chevrolet racing engine and utilizes a spring front-cross bar rear suspension.

Honor 'Y' Swimmers

Sixty-one swimmers associated with the YMCA received trophies for their past achievements in the sport at a banquet Saturday night at the "Y", attended by more than 200 parents and swimmers.

Claude Miller representing Tri-City Grocery Co. and Edward Overick of the First Granite City National Bank made the presentations.

Those who received the "most valuable" trophy in their individual categories were cadet boy and girl, David Jolly and Marie Fernandez, midget boy

and girl, Ken Jolly and Shannon Stocker; prep boy and girl, Mark Buehler and Debra Griffin; junior boy and girl, Paddy Jim Baggot and Gayle Schenke; and intermediate boy and girl, Scott Loftus and Ellen Gault.

"Most improved" trophies went to Steve Mann, Lena Mann, Mark Becherer and Diana Becherer.

Slides taken at the national YMCA swimming meet last week in Fort Lauderdale, Fla., provided the program for the evening.

GC Net Team Drops 1st Match Of Season

The tennis Warriors of Granite City High School lost their first meet of the season 3-2 Thursday at Clayton, Mo.

Tripped in singles events were Mike Gaines 5-7, 4-6, and Joe Papes 6-4, 6-2 and 3-6. Rich Gaines won 6-0, 7-5. In the doubles, Duane Parriss and Wayne Christopher won 4-6, 6-4 and 7-5, and Gary Loy and Robbie Parnely lost 6-3, 4-6 and 3-6.

The team play at Collinsville at 4 p.m. today. If they win against the Warriors will clinch the Southwestern Conference tennis title. The Warriors beat Collinsville earlier this season 5-0.

GCHS tennis teams have either won or tied for the conference title for the past four years.

Warriors Win Four More Over Weekend, Now 18-9

The baseball Warriors increased their overall record to 18-9 as they swept four games over the weekend.

They tripped Belleville Alton Thursday 4-2, dropped Madison at home 12-6 Friday and took two from St. Louis.

In Friday's game against the Madison Trojans, GCHS collected 12 hits and committed eight errors. MHS had six hits and made six errors.

It was 4-4 going into the fifth when the Warriors scored three runs, followed by five runs in the sixth.

The second inning saw Warrior catcher Tim Lyster hit a four-bagger with Steve Baran on base. Bert Thompson tripled for the Trojans in the second but no one was on base and he was left there.

Sophomore Tim Mank pitched his first varsity game for the Warriors and was credited with the win over Madison although replaced for the last two innings by Frank Baran.

Warriors Don Harris and Lyster were each 2-for-3 at bat and Jack Scarborough was 2-for-4.

Call Practice
After committing eight errors Friday, the Warriors had a special practice before the twinning with Normandy.

The practice paid off as Normandy was demolished 19-2 and 9-5.

Stapp was pitching a no-hit game until, with two outs in the fifth, Normandy came through with two hits and two runs. The game was called at the end of the fifth due to the ten-run rule.

Parks got a grand slam in the third, and Scarborough hit a solo four-bagger in the second.

Forks was 3-for-3 and scored three runs, Scarborough was 4-4 and scored four runs and Harris was 1-for-1 with two RBIs.

Tapp, Arbetter, Lyster, Dun and Scarborough all hit doubles.

Normandy Takes Lead
Normandy took the lead in the second game Saturday 5-3, but GCHS scored six runs in the sixth.

John Stanton started for GCHS and was relieved in the fifth by John Ireland, who got the win. Ray Hoffman relieved in the seventh. The three-man

aged 10 strikeouts and walked five.

Scarborough was 2-for-2 and scored four RBIs for the day. Parks finished the twinning at 4-for-6 and six RBIs.

Altoff Game
In Thursday's game at Altoff, GCHS totaled four runs on nine hits, played errorless ball. Altoff had two runs on five hits and committed three errors.

Hurler Vic Remack went all the way for GCHS and is now 6-1.

In the fifth, James Forrester got on base on an error, Scarborough and Harris singled, and DeRuntz, Arbetter and Burdge walked, for a total of three runs.

Harris, Scarborough and Forrester were each 2-for-4.

"Our infield played an outstanding defensive game," Coach Gale Garbe said. "They got two double plays and Burdge handled the third very well, even though the Altoff diamond is rough."

The Warriors play every day this week but Wednesday. They travel to Collinsville today. The Trojans travel to Dupo today.

OUT STEALING. Al Sanders, Washington University's left fielder, is thrown out at second by Cougar Mike Allaria in the second inning of game at the SIU-SW diamond. Shortstop John Belk made the tag. The Cougars won 20-3.

Cougar Nine Wins Three More, Defeats Rolla Twice, Bears

The Southern Illinois University-Southwestern baseball team ran its season's record to 17-4 by sweeping a doubleheader from the 23-game season toll of Missouri at Rolla Saturday afternoon, 24-1 and 8-4.

During last Thursday's game with Washington University played at SIU-SW's field, Coach Roy Lee had reminded his charges that bids to the Mid-East Regional tourney of the NCAA would be announced on or before May 10.

The Cougars demolished Washington U. 20-3.

Individual batting averages for the 23-game season toll the story dramatically: Jerry Pelcher, Collinsville, .350; Dennis Schutzenhofer, Belleville, .355; Rick Keefe, Belleville, .350; Dan Cole, St. Louis (Normandy), .400; John "Champ" Summers, Madison, .333; Mike Allaria, Edwardsville, .300; John Belk, St. Louis (Fairview), .300; Robert Belshie, Granite City, .288.

Pelcher and Beck walked in the seventh. Summers doubled and scored. Pelcher, catcher Belshie came through with another screaming ground-rule double which knotted the score at 6-6.

In the extra frame, Allaria led off with a single and went on a second on an error. Pelcher blasted a long single to right scoring Allaria, who then advanced to third on a throwing error. Ron Middleton laid down a perfect bunt toward third and Pelcher scored to make the final 8-6.

This Thursday, SIU-SW will be at Jackson, Tenn., for a single game with Union University, and on Friday will play Arkansas State a twinning.

MHS Netsters Gain Their 1st Victory, 3-2

The tennis Trojans gained their first match win of the season against Bethalto Thursday 3-2, playing on the GCHS courts.

Trojan Bob Hollenbeck lost the first singles 6-0, 6-1 but Curt Bosworth took second singles 6-3, 4-6, 6-3 and Bill Fox won the third singles, 6-3, 2-6 and 7-5. Madison lost first doubles, as Shawn Soles and Bill Weidner were downed 6-4 and 6-4. Kevin Shaffer and Mike Ramach won second doubles 9-7, 9-7.

The first taste of partial victory for the Trojans was against Columbia April 21, when Weid-

ner and Bosworth won first doubles 6-4, 6-4. On Tuesday, the Trojans will play Columbia again on the GCHS courts at 4 p.m.

Rock Misses; Hits Car
Clifford Flock, whose address was listed as the U. S. Air Force Base, Ellettsville, Ark., reported at 11:25 p.m. Friday that a 15-year-old boy threw a rock at another youth, missed his target and struck and broke the windshield on Flock's auto. The incident took place at Nameoki Road and Madison Avenue, Flock said.

Sluggers Send Cougars Into Mid-Season Surge

Sure-fielding Dennis Schutzenhofer, Southern Illinois University-Southwestern's baseball team captain and second baseman, has continued his hitting surge and has vaulted into the batting leadership with a hefty .381 average.

Schutzenhofer, a senior from Belleville (West High), took over the batting lead for the Cougars as they swept three games, 9-4 over the Rivermen of the University of Missouri, St. Louis, and a 7-3 and 10-2 twin-killing over the Bears of Southwest Missouri State of Springfield.

In the three games, Schutzenhofer blasted seven hits in 13 official times at bat. In 20 games, in which the Cougars built themselves a 14-6 record, Schutzenhofer has been at bat 78 times (most for the squad), and hit safely 27 times, including a double and one four-bagger.

Edwardsville's Mike Allaria, who had led SIU-SW earlier

with a .357 average, dropped to .242. But he has been on base more, on an average, than any other player.

He has played in only 13 games because he shares catching duties with Granite City's Roger Belshie. On-base leader is Belleville's Rick Keste with 36 times but Allaria is right behind with 32. Allaria has drawn 14 walks, tops for the Cougars.

Most dramatic upsurge was registered by Dan Cole, left fielder from Normandy High, who snapped out of his batting slump by smashing two homers and raising his average from .283 to .358.

John "Champ" Summers, senior outfielder from Madison High, continued his run-batted-in leadership, upping his total from 16 to 21, including a clutch three-run homer in Saturday's first game against Southwest. Jerry Pilcher of Columbia has 16 RBI's.

Madison Thinclads 3rd In Sophomore Meet

Madison's sophomore trackmen placed third with 41 points to Roxana's 48 points and Triad's 45 in the Midwestern Conference sophomore meet at Highland Thursday afternoon.

Other teams and their points were Highland 40, Dupu 38 and Bethalto Civic Memorial 28.

Going into the mile relay, the final event, Roxana and Triad were tied for first place with 42 points and Madison was only one point behind, well within reach of victory.

The Trojan's first three men opened up a slight lead in the mile event but a poor exchange to Charles Johnson put him about two yards behind Roxana's anchor man.

Johnson, who had just finished running third in the 220 dash, held the second position to the final curve and ran out of wind, falling off the track and out of the race. Earlier in the meet, Johnson had anchored the victorious Madison 880 relay team with Mike Turner, Chris Stanley and John Newcome, tying the 1968 meet record of 1:39.

Golfers Drop Alton Meet; Rematch Today

GCHS golfers dropped a match 150-169 to Alton Thursday on the par-36 Rock Springs links in Alton but will have an opportunity to get revenge this afternoon as Alton meets the Warriors on the GCHS home links, Arlington Heights.

Pete Litz led Thursday with 39, Jack Eagles finished with 42, Gary Zimmer 43 and Dave Rouland, 45. Mike Willis used 47 strokes, Mark Speer 49 and Bud Worthen 53.

The Warrior record for the season is now 4-10 in dual meets.

Royce Boyd won the discus at 117 feet, 8 1/2 inches, and Stanley was victorious in the 120-yard low hurdles over 10 in 16.4 seconds.

Second places for the Trojans were by Newsome in the 220 and Boyd in the shot put.

Music, Light Show Wednesday

A music and light show featuring William (Bill) Smith, clarinet, and David Shrader, percussion, will be held in Southern Illinois University's Ballroom Wednesday at 8:15 p.m. Admission is \$2 for adults and \$1 for students.

Smith, a member of the original Dave Brubeck Octet, and Shrader are on the music faculty at the University of Washington in Seattle. Their appearance here is a Fine Arts Series event.

Smith was introduced to the world of oscillators, resistors and transistors in the early 1950s when Otto Luning invited him to work at the Columbia-Princeton Electronic Music Center in New York City. In 1963 he was directing the electronics laboratory at the American Academy of Music in Rome.

"Whether we like it or not," Smith says, "we're faced with electronics. I happen to like it myself. . . . The use of electronic aids has a number of implications for the traditional makeup of jazz groups and their player interaction."

"Instead of working committee style, as a normal jazz group does, there's only one person doing all the improvising."

Shrader, who earned his doctorate in music at the University of Oregon, has recorded for Advance Records and written for Media Press. He has performed extensively in the Northwest and in Canada.

The Smith-Shrader program

CLARINETIST WILLIAM SMITH and David Shrader, percussionist, who will appear at 8:15 p.m. Wednesday at SIU-SW.

at SIU-SW will open with Smith playing "Wheel of Fortune" (1970) by Oliveros. Shrader will follow, playing one of his own compositions, "Variations on an Indian Tale" (1969). The first half of the concert will also include "Improvisations" by Smith-Shrader.

Following intermission they will do "Illegible Canons" by Bergamas and "Explorations," composed by Smith in 1971.

Consumer Product Information Index Now Available to Public

The Federal Government has released an Index of Consumer Product Information and said that it soon will identify by brand name products it buys that also are available to consumers.

During a ribbon-cutting ceremony in the Everett McKinley Dirksen Building, Chicago, General Services Administrator Robert L. Kunz said the first copy of the Index of Consumer Product Information to Virginia H. Knauer, Special Assistant to the President for Consumer Affairs.

Kunz said that the publishing of the index of 211 selected low-cost products by 11 Federal agencies "is one of the first steps in President Nixon's new program to share more product information with consumers. Never before have existing consumer product publications produced by various Federal agencies been listed in one convenient index."

Free copies of the index may be obtained at the 25 Federal Information Centers across the country or by writing to the Consumer Product Information Distribution Center, Washington, D.C. 20407.

In accepting the index, Mrs. Knauer said: "We have discovered an enormous amount of information which could be useful to consumers. However, we must establish priorities. So today I am appealing to all consumers to write to me at the White House and identify the products in which they are most interested and the product characteristics most important to the buyer."

"I cannot stress too strongly the need for this information. Only with the consumers' participation and direction can we generate a program that will be of great benefit to all consumers."

Kunz made two additional announcements of importance to the consumer. He stated that while GSA, the Government's primary purchasing arm, buys according to specification and not brand name, a new consumer oriented policy is being instituted.

"Effective today," Kunz said, "the successful bidders on approximately 4,000 consumer items will be requested to submit the brand name if the same product is available commercially to the consumer." It

is anticipated that the first of this information will be released to the American consumer by Oct. 1.

Eight Publications

Kunz also announced the inauguration of a new consumer product information publication series by GSA. These publications will aid the consumer in the purchase and maintenance of various consumer products. A minimum of eight publications will be released by the end of the year, covering such topics as carpets and rugs, vacuum cleaners and paint.

The index which became available last week was developed by the new Consumer Product Information Coordinating Center with the cooperation of the Office of Consumer Affairs. Included in the index are titles of 25 publications which already are stocked at all Federal Information Centers. All 211 publications may be obtained by filling out and mailing the order blank in the back of the index. As new relevant publications are issued, they will be included in subsequent editions.

The subjects in the 15-page index range from A to Z—from appliances and automobiles to zippers. Among the publications are ones on budget shopping (including food), building, buying and financing homes, home repairs and improvements, and health.

The booklets were selected on the basis of economic impact and usefulness to the average consumer, general interest, seasonal appeal and availability of information.

The Consumer Product Information Coordinating Center, created by President Nixon as part of GSA, is responsible for encouraging the development and procurement activities. It is also charged with promoting greater public awareness of existing Federal publications of interest to consumers.

GSA is ideally equipped to serve as disseminator of the product information to consumers. It operates the 25 Federal Information Centers as part of the President's program to bridge the gap that too often separates the people from the Government, Kunz said.

The Information Centers are staffed by personnel who are prepared to answer or get an answer to any inquiry about Federal services and programs. They are located in heavy pedestrian traffic areas in major cities.

Locations and phone numbers of the Federal Information Centers include, in St. Louis, the Federal Building, 1520 Market St., St. Louis, Mo. 63103, telephone 1-314-622-4106.

335 at Annual County Homemakers Meeting

Mrs. Earl Hanes of Mt. Vernon gave a humorous program on "Hats, History and Hilarity" for 335 members and 31 units at the Madison County Homemakers Extension Association annual meeting in the Student Center Ballroom at SIU-SW Thursday.

Mrs. Hanes commented, "We are living in a grand and awful time; we walk on the moon but we remain at war. Never have we lived in a time when we needed humor more than today."

With those introductory remarks, she proceeded to amuse the ladies with a parade of women's hats dating back to 1800.

As she modeled each creation, she related incidents about the status of women relating to that particular era. Her collection—40 hats were displayed—including 400 chequers.

"Hats Off to Homemakers" was the theme for the day's activities. Opening the morning portion of the program was the county president, Mrs. Guy DeChiara. A welcome was offered by Mrs. Melvin Werner, central district chairman, and Dr. Andrew Knochman, SIU-SW vice-chancellor.

Rev. Russell Wigfield, Presbytery campus minister, gave the invocation, followed by group singing led by Mrs. Elmer Langenberg and accompanied by Mrs. Clyde Lebeque. Mrs. Robert O'Connor directed the members and guests in the pledge of allegiance.

Mrs. David Warren, county secretary, reported on the 1970 annual meeting. Mrs. Marshall McElroy, county second vice-president, gave the membership report. The budget for the county was presented by Mrs. Eugene Clara Long, Virgil Davis, Clyde Lebeque, Orville Plocher and Ralph Culp. Guests were introduced from St. Clair County, including Mrs. H. C. Heberer, District 7 INEF Director.

Reports on Extension activities during 1970 were given by extension advisers Catherine Mauck, Mary Knecht and Cathy Helgej. Program Assistant Leora Howlett of Madison told of the expanded nutrition program in the Quad-City area.

Mrs. Melvin Werner presented the slate of officers for election: Mrs. William Stutz, Bethalto, second vice-president; Mrs. Richard Gussweiler, Hamlet, treasurer; Mrs. H. H. Meyenburg, Alton, citizenship and safety chairman; Mrs. Louvain Voth, Edwardsville, creative arts chairman; and Mrs. Cliff Stahliut, Edwardsville, home furnishings and home management chairman.

Officers and directors remaining in the same position are Mrs. Guy DeChiara, Collinsville, president; Mrs. Wilbur Hendricks, Moro, first vice-president; Mrs. David Warren, Edwardsville, secretary; Mrs. Udell Wehling, Alhambra, family life, recreation and international chairman; Mrs. Wilfred Rutz, Highland, public information chairman; Mrs. Robert Bravie, Granite City, 4-H chairman; Mrs. C. C. Leach, East Alton, clothing chairman; and Mrs. Alfred Kesman, New Douglas, foods, nutrition and health chairman.

Mrs. Orville Plocher, past president, installed the officers and directors.

Mrs. Marshall McElroy, second vice-president, presented membership awards.

The Florence Johnson Traveling Gavel was awarded to the Isabel Bevier unit here for the largest percentage of membership gain. Receiving honorable mention was the Fort Russell unit. Blue ribbon recognition went to the Tuesday unit.

Collinsville's unit was recognized for having the most members present, and the Bluff unit had the largest percentage of members in attendance.

Decorations for the day followed the "Hats Off to Homemakers" theme—miniature sun bonnets and straw hats filled with flowers.

City OKs Paving Fehling Road From State Street to Bradley

A proposal that the city resurface Fehling Road from Nameoki Road to Benton Street was turned down by city council members last week but they did approve plans to pave the road between State Street and Bradley Avenue.

A majority of aldermen rejected the idea of paving the full length of Fehling Road because of the "obvious high cost" during a discussion in which they agreed, however, that action was necessary to aid homeowners who have complained that heavy traffic—particularly trucks and buses—is causing serious damage to their houses.

Alderman R. E. Robertson, who explained that he has received persistent complaints of house damage caused by "rumblings and vibrations" set up by traffic movements, told the council that "I think it is high time we do something about this. The stretch of Fehling road put down after the sewer repairs nearly two years ago has never been right."

Robertson moved that the council authorize the resurfacing of Fehling Road from Nameoki Road to Benton Street as a local improvement financed directly from city funds. In response to a question as to whether the work might be financed with motor fuel tax funds, Robertson replied:

MFT Fund Exhausted

"I think if you will look into it, you'll find that the motor fuel tax fund is exhausted. . . you'll see that when we get the next treasurer's report." Robertson said.

Rule Against Council Deferrals Reaffirmed

City Attorney Leon Scroggins reaffirmed in a written opinion given the city council last week an earlier ruling that the city council's past practice of deferring final action on major issues on motion of only two council members is illegal.

Scroggins was requested to prepare the opinion in writing in a council session April 19 when he first ruled orally that a motion to defer action on a demand for a vote recount in the seventh ward was illegal. The attorney said he had researched the statutes and municipal code and could find no authority for deferring matters without a vote of a majority of the council, except in the consideration of committee reports.

erson, who is chairman of the council's finance committee, remarked that "I think we can find enough money in the budget."

Alderman Sam Whitmer protested that such a project would be "quite costly" and that in the absence of cost estimates or figures indicating the full extent of the job he was opposed to the idea. He said that the city instead should be thinking about the installation of electronic traffic signals that turned red upon the approach of emergency vehicles.

Alderman Clyde Boyd said he

Registration Tuesday at Park for Pre-Schoolers

Registration will take place from 9 a.m. to 3 p.m. Tuesday for the Granite City Park District's 1971 summer pre-school program. It was announced today by Harold Brown, park superintendent.

A maximum of 35 pupils will be accepted in the four pre-school and two kindergarten level classes planned for the summer program, to start Monday, June 7, Brown said.

Tomorrow's registration session will be held in the Wilson Park rink pavilion. Participation is limited to children living in the park district, Brown said. Youngsters will be accepted on a first-come, first-served basis.

To enroll in the park summer sessions, preschool children must have reached their fourth birthday by June 1. Youngsters currently attending kindergarten classes may be registered for the same level classes in the summer program, the director explained.

Brown pointed out that each child may attend only one class, with classes divided into one morning and one afternoon session on separate days. He said this arrangement will enable all participants an opportunity to use the park pool wading facilities, available during the morning hours only.

2 Sessions Daily

Morning sessions will convene from 8:30 to 11:30 a.m., with the second class held from 1 to 3 p.m.

No charge is made for those attending the pre-school and kindergarten classes, the park officer said. Ten dollars per day should be given each child to cover the cost of an orange drink and cookies.

Brown also reminded parents that each youngster is required to pay a \$1 insurance fee, which will cover the child in any district program through June 1, 1972. Children having paid

agreed that resurfacing all of Fehling Road would be "quite a project" and suggested that "we try to take care of that during the home damage is occurring."

It was agreed the trouble area lies primarily between State Street and Bradley Avenue. As a result, Robertson withdrew his original motion and restated it to call for resurfacing of Fehling Road between State Street and Bradley Avenue.

Alderman Paul Rutledge cast the only dissenting vote.

Nolan-Smolar Wedding At Sacred Heart Church

Sacred Heart Catholic Church was the scene of the wedding Saturday afternoon of Miss Carol Smolar, a daughter of Mr. and Mrs. Joseph Smolar, 2545 Jericho Ave., and Richard T. Nolan, whose parents are Mr. and Mrs. Richard G. Nolan, 2610 Delmar Ave.

The Rev. Daniel Flynn officiated at the 2 o'clock ceremony and a reception was held afterward at Holy Trinity Hall in Madison. Miss Sandy Lucido was in charge of the guest book.

Mrs. Margaret Crawshaw presided at the organ and accompanied the vocalist, Mrs. Alice Worthen, as she sang "Ave Maria." "On This Day" and the Lord's Prayer.

The bride wore a floor-length gown of organza over taffeta, featuring an Empire waistline encircled with Venice lace, a high round neckline and a yoke of organza edged with lace. Long puffed sleeves were cuffed with lace and lace trimmed the A-line skirt.

A mantilla cap secured the bride's cathedral veil of illusion edged with lace and she carried a bouquet of white carnations with white streamers. Mr. Smolar gave his daughter in marriage.

Miss Jean Smolar, a sister of the bride, was maid of honor, and Miss Maureen Nolan, the bridegroom's sister, served as bridesmaid. Young sisters of the bride and groom, Laura Smolar and Nancy Nolan, were flower girls.

The honor attendant and bridesmaid were in pink voile gowns with Empire bodices, long sleeves trimmed with Venice lace on the cuffs and the front of the bodices, and pink, ruffled standup collars. They carried bouquets of pink carnations and wore pink bows in their hair.

The flower girls were in pink dotted swiss frocks with jewel necklaces and pink and white bows in their hair. They held nosegays of pink and white carnations.

For her daughter's wedding, Mrs. Smolar chose a peach colored coat dress, and Mrs. Nolan appeared in a pink ensemble. Their corsages were carnations tipped to match the dresses.

Larry Nolan was his brother's best man, and David Nolan, another brother, served as groomsmen. The ushers were Charles Tayloe, Richard Kelley and Larry Zotti.

The bride and groom are graduates of the Granite City High School. Mr. Nolan is presently a student at the University of Missouri, Rolla, and is employed by the Corps of Engineers in St. Louis.

The former Miss Smolar is employed by the Southwestern Bell Telephone Co. in Granite City. They will reside here.

Division of Nursing At SIU-SW Gets Grant

The Division of Nursing at Southern Illinois University, Southern campus, has received \$33,041 from the U. S. Public Health Service, Division of Nursing, for a special project, "An Experiment in Education for the Registered Nurse." The grant covers a 12-month period.

Aim of the proposal, according to Lucille McClelland, dean of the Nursing Division, is to plan an experimental component within the existing nursing education program which will enable registered nurses to complete the requirements for a baccalaureate degree in nursing.

The proposal will assist the division in planning some means of facilitating the education of registered nurses in the southern part of Illinois, particularly those who cannot leave home for extended periods of time to complete nursing requirements.

The grant incorporates plans which have future implications for facilitating continuing education of practical nurses and nurses aides, Dean McClelland said.

The plan includes working with all interested community colleges and SIU's Extension Division and General Studies Division to determine courses offered at various community colleges which would be equivalent to those taught at SIU.

This information would assist high school graduates and registered nurses in meeting pre-nursing requirements through community colleges.

Madison Schools Sued On Disturbance Injury

A suit seeking a total of \$4,000 for William Dole, 17, and his father, William Bridges, against the Madison School District has been filed in Madison County Circuit Court as an aftermath of student disturbances at Madison High School on May 1, 1970.

The complaint alleges that the youth was injured during violent acts committed by some students at the school, and \$3000 damages are asked. The father seeks \$1,000 for medical expenses. The complaint alleges negligence in supervision of the students during class hours by the school administration.

Amvets Drop Plans To Display Plane

Plans to locate an F-84 jet fighter on the Amvet Post 51 grounds have been abandoned because space allocated for the military surplus aircraft was found to be inadequate.

A central site on the Post 51 property, 5100 Lakeside Drive, previously was believed large enough to display the plane, Rex Manninger, Post 51 commander, told club members.

The veteran's group also plans to install aluminum covers over outdoor barbecue pits. A new member, Paul Schuler, has been welcomed. Funds have been allocated to purchase items for mailing to two servicemen in Vietnam.

Delegates from Post 51 will attend the Illinois Amvets state convention in June at Peoria, Manninger said.

The commander also announced that Post 51 will serve as location for the May 23 meeting of Amvet Fifth Division units. Officials from Madison Amvet Post 204 will serve as hosts at the area session, he added.

NEW MADISON COMPTROLLER. Meredith Mullen assumed the duties of Madison city comptroller today. Mullen succeeds E. J. Miller who is retiring. He has been working in the comptroller's office four months as Miller's assistant.

Meredith Mullen on Job As Madison Comptroller

Meredith Mullen, 52, of 1532 Seventh St., Madison, officially assumed his duties today as the new Madison city comptroller to succeed E. J. Miller.

Miller is retiring after 34 years in the position. He began working for the city May 1, 1937.

Mullen has served as Miller's assistant since January when he was appointed by Mayor Mike Sasyk as Miller's successor.

The new comptroller was born in St. Louis and was educated in St. Louis public schools. He attended the University of Minnesota for one and one-half years in cadet training for the Army Air Corps.

In 1941 he married the former Miss Kathryn Kokorudz of Madison.

Former Ball Player
When he was discharged in 1945 he was signed to a minor league team of the St. Louis Browns, now the Baltimore Orioles. He was an infielder for the farm team with such baseball greats as Chet Lubs, Vernon Stephens and Mark Christman from 1945 to 1948.

After the Browns won their first St. Louis pennant in 1949 and met the Cardinals in the 1944 World Series (the Cardinals won) he was advanced to the major leagues.

He suffered an arm injury in 1948 that ended his baseball career.

For five years Mullen sold life insurance here and then he and his father-in-law, V. "Happy" Kokorudz, started a soda distributing firm, which Mullen managed.

Employed by State
They sold the business in 1961 and Mullen went to work for the Illinois Department of Revenue. He started as a field worker and worked his way to the position of assistant district supervisor. Within hours after Governor Richard B. Ogilvie was sworn into office, the pair-

son was abolished and Mullen was seeking another job.

In January 1969, Mullen accepted a one year position with the Greater St. Louis Sports Enterprises as a promoter for the National Handicap Bowling Tournament. Mullen traveled extensively doing public service work for the amateur tournament.

He spent the first half of 1970 in a car agency in Palm Springs, Calif., and then returned here to sell insurance for the Fijan-Maeres Insurance Agency.

In January, Mayor Sasyk appointed him comptroller to succeed Miller. The city's 1971-72 fiscal year began Saturday.

County Seeks Revenue, Improved Conditions at Mobile Home Courts

In voting 31-16 last week to adopt a mobile home park licensing and control code, the Madison County Board of Supervisors gave recognition to the growth in trailer courts and cited two objectives—greater revenue for the county government and improved environmental conditions at the mobile home parks.

Dan Churovich, a Granite City assistant supervisor, said some mobile home courts are substandard and reported that the state now permits counties to inspect and regulate them.

He estimated that, at \$10 a year for each house trailer space, the county may derive \$30,000.

S. A. Griffin of Wood River Township, in opposition, pointed to legislation pending in Springfield to assess trailers as real property.

He noted that the county supervisor of assessments has instructed assessors to follow suit. He said it would be better to obtain better inspections by the state.

Real Estate Tax

Griffin proposed that the legislation committee write letters to the General Assembly urging passage of a real estate tax on trailers. He noted that mobile home owners now pay \$50 per year plus \$3 per pad in fees to the state, with no limit.

Churovich replied that "there is no assurance that mobile homes will be classified as real property in the near future. The trend is now to local control. We know what is going on here, with no limit."

"The county ordinance calls for space of 4,000 square feet (per pad), and the state regulation is 2,200 square feet. Fees will pay for inspection and administration."

Sparks Questions Plans
Walter Sparks, Chouteau Township supervisor, had a question: "This ordinance does not deal with owners of trailers but with operators."

"I wonder if it can be enforced . . . whether you can force him to combine three or four pads to meet space limits. Can we interfere with his business?"

Churovich said, "You cannot force existing trailer courts to change. But we can make the operator clean the place up and make it a little more respectable."

"I doubt if new state legislation will ever reach the Assembly floor. The bills have a habit of dying in committee."

Referring to a representative of the Madison County chapter of the Illinois Mobile Home Association who wishes to address the board, Churovich said,

"This man who wants to speak which, he said, "has qualified inspectors who play no favor."

"The state fee is one-third that of the county proposal, at least \$500 extra expense for each park would be passed on to the tenant."

56 Polling Places Open to Voting on Levee Trustees

Quadrant area voters living within the boundaries of the East Side Levee and Sanitary District will cast their ballots in 56 precincts of Granite City, Nameoki, Venice and Chouteau townships tomorrow in the nomination of two Republican and two Democratic levee board members.

Voters will go to the polls in a special primary election called by Illinois Governor Richard B. Ogilvie to elect a new levee board of five members—two of them from Madison County and three from St. Clair County—to replace present board members. Ogilvie contends the incumbent board members have been removed from office by their conviction last fall on charges of mismanagement.

The Madison County sector of the levee district encompasses Granite City, Venice and Nameoki townships and part of Chouteau township. Balloting in the area will be in all 32 precinct polling places in office.
